PROFESSIONAL SUMMARY

Full-Stack Engineer with **3+ years** building **multi-tenant SaaS** in TypeScript, React, React Native and Node.js for clients in healthcare, finance, education, logistics, retail and manufacturing. Cut report latency up to **98.5%** on **4.5 million records** and owns delivery end to end, from client requirements through **Docker, CI/CD and AWS** to production.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL, HTML, CSS, Bash

Frontend: React, Next.js, React Native, Expo, Redux, Tailwind CSS, WCAG 2.1 AA

Backend: Node.js, Express.js, NestJS, REST APIs, Socket.IO, JWT, OAuth 2.0, RBAC, Swagger/OpenAPI

Databases: MongoDB, PostgreSQL, MySQL, Redis, Prisma, TypeORM, Index design, Query optimisation

Cloud & DevOps: AWS (S3, IAM, Cognito), Docker, Docker Compose, NGINX, Linux, GitHub Actions, CI/CD, Azure (AZ-900)

AI, Testing & Tools: Google Gemini, Anthropic Claude, Jest, Playwright, Supertest, Git, Postman, Jira, Agile/Scrum

PROFESSIONAL EXPERIENCE

Full-Stack Developer **September 2023 - Present**

FiveM Infotech, Mumbai, India

- Delivered **12+ production applications across 6 industries**, collaborating with client stakeholders through weekly demos; re-architected the flagship as **multi-tenant SaaS** on **4 platforms from one codebase**.
- Cut a 365-day hospital billing report **98.5%, from 10.5 s to 152 ms**, by storing each bill's department at write time and replacing 2 per-bill $lookups with one indexed range.
- Brought all **83 API paths inside p95 latency budgets** at 4.5M documents, fixing 6 failing endpoints by redesigning indexes across 13 collections, with a CI gate blocking regressions.
- Cut RoadAxis's slowest search from **1,148 ms to 99 ms** by moving a per-result $lookup after pagination, keeping every search under **100 ms p95 on 10,000 listings**.
- Reduced release to a **single merge across 5 products** with GitHub Actions, multi-stage Docker, Docker Compose and NGINX, plus encrypted nightly backups and S3 presigned uploads.
- Integrated **Google Gemini** for invoice OCR and lessons in **7 Indian languages**, with timeouts, moderation and a fallback so a model outage never fails the request.
- Hardened APIs with rate limiting, Zod validation and **JWT refresh-token rotation**; integrated **10 services** including Stripe, Razorpay and SAP ERP, and trained client staff with runbooks.

KEY PROJECTS AT FIVEM INFOTECH

HMS - Hospital Management System | hms.fiveminfotech.com

(Node.js, Express 5, MongoDB, Expo, Electron, Docker)

Multi-tenant, reception to billing for 9 staff roles, 221 test files; cleared all 473 serious WCAG 2.1 AA issues on 46 screens.

Plusveda - Multi-Tenant Inventory & POS SaaS | plusveda.online

(Node.js, MongoDB, Docker, NGINX, Expo, Electron)

Pharmacy stock and billing on Android, iOS, web and Windows; 182 REST endpoints, 33 models, transactional stock writes.

RoadAxis - Garage and Recovery Booking Platform (UK and UAE) | rx.fiveminfotech.com

(React 19, TypeScript, Node.js, Express 5, MongoDB, WhatsApp Cloud API, Leaflet)

Drivers find and book garages, tyre centres and recovery firms in two countries from one deployment.

EDUCATION AND CERTIFICATIONS

Bachelor of Science in Computer Science, Mumbai University, Mumbai, India 2020 - 2023

HSC (Science) and SSC, Ideal College and Ideal High School, Mumbai 2018 - 2020

Microsoft Certified: Azure Fundamentals (AZ-900) | Microsoft Certified: Azure AI Fundamentals (AI-900), verify
